Overview

The TruVision High Definition IP Video Decoder is the ideal solution to convert compressed IP video streams to analog video output for optimal video surveillance. Based on an advanced DSP and stable-embedded system design, the TruVision High Definition Video Decoder provides high-resolution decoding functionality for both live-view and playback streams from TruVision IP cameras, DVRs and NVRs.

Issue resolved with this firmware

- An issue has been fixed in firmware, so that the decoder is capable of decoding the streams of the S3 and S5 turret cameras:
    - o TVT-5301
