

Coaxial Controller

For configuration of TruVision motorized lens cameras

OVERVIEW

The Coaxial Controller brings a measure of ease to installing cameras with a motorized lens. Installed in line with the coaxial cable between camera and DVR, the handheld service tool allows easy access to the camera's on-screen menu for quick configuration.

Powered by a battery or 12VDC external power supply, the coaxial controller is an invaluable tool for fast and efficient camera setup and adjustment.

STANDARD FEATURES

- Compatible with the TVB-2104/4104, TVB-2105/4105 and TVD-2101/4101 cameras
- Used for quick access to zoom/focus controls on motorized lens cameras
- Powered by 2 AAA batteries (not included) or 12VDC

Specifications
