- 4 M4 screws (4 x 25 mm) and 4 dry wall anchors ($\varnothing 7.5 \times 24.5$ mm) for wall or ceiling installation
- Template
- Back box

- 3 M4 screws (3 x 25 mm) screws to install the camera to the back box
 - Hex wrench
- WEEE and Battery Disposal
 - Monitor output cable
- CD
 - Installation Guide

Camera description

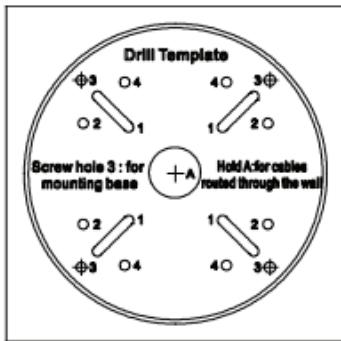

- | | |
|---------------------------|----------------|
| 1. Dome liner | 5. Power cable |
| 2. Bubble | 6. Video cable |
| 3. Auxiliary video output | 7. Lens |
| 4. Menu button | 8. Back box |

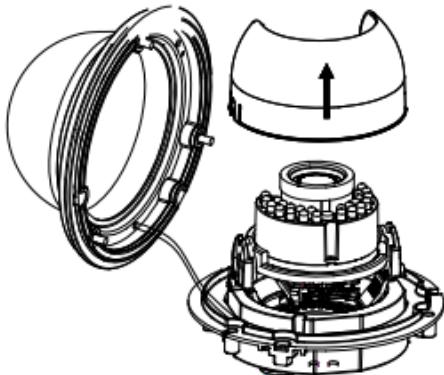

Installation

To install the camera:

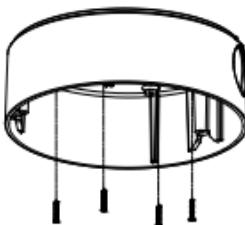

1. Using the template, place it level against the mounting surface and mark the position of the mounting holes.

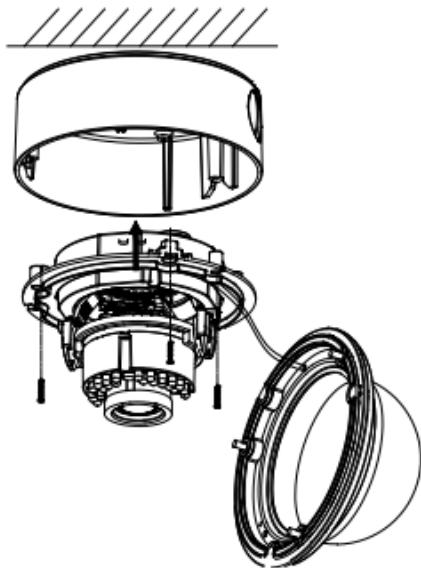

2. Following all local codes, drill and prepare the mounting holes.
3. Remove the camera from its back box.
4. Loosen the three set screws on the edge of the bubble with the supplied hex wrench. Remove the bubble and the dome liner.

4. Secure the back box to the ceiling with the supplied screws.

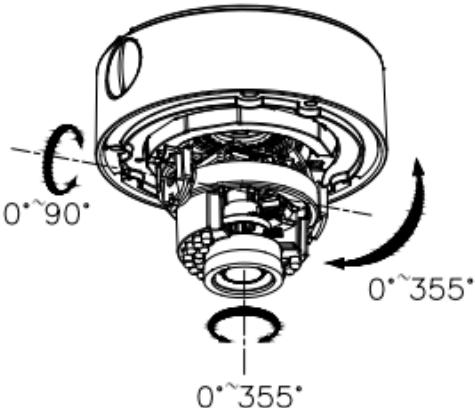

5. Connect a 75-ohm coaxial video cable to the video cable and a power supply to the power cable.
6. Align the camera with the back box and tighten the set screws to secure the camera to the back box.

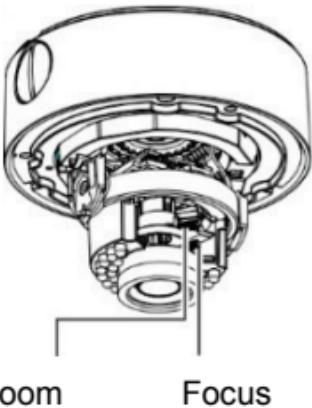

7. Adjust the surveillance angle:

- 1) View the camera image on a monitor.
- 2) Rotate the panning table to adjust the pan direction [0 to 355°].
- 3) Loosen the tilting lock screw.
- 4) Rotate the tilting table to adjust the tilt direction [0 to 90°].
- 5) Tighten the tilting lock screw.
- 6) Rotate the camera lens holder [0 to 355°] to adjust the lens to the surveillance angle.

8. Zoom and focus adjustment.

- 1) View the camera image using the monitor.
- 2) Loosen the zoom lever and move the screw between T (Tele) and W (Wide) to obtain the appropriate angle of view.
- 3) Tighten the zoom lock screw.
- 4) Loosen the focus lever and move the screw between F (Far) and N (Near) to obtain the optimum focus.
- 5) Tighten the focus lock screw.

Programming

Once the camera hardware has been installed, the camera can be configured by using the built-in OSD button or a TVS-C200 controller (purchase separately).

The Setup menu provides access to the camera configuration options. See page 11 for an overview of the menu. Please refer to the configuration manual for further information on setting up the camera.

Program the camera by attaching a standard video monitor to the system.

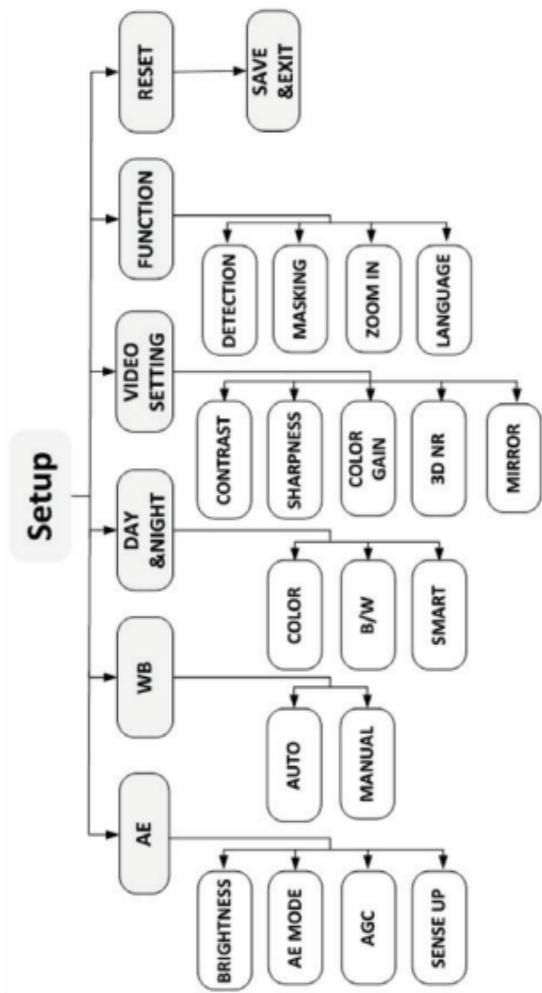

To access the Setup menu:

1. Press the OSD control button (**Enter**) to access the Main menu and its submenus.
2. Push the button up, down, left and right to move between menu options.
3. Press the OSD control button to select an option.
4. When in a submenu, select **Return** to return to the previous menu.
5. To exit the Main menu, move the cursor to **Exit** at the bottom of the screen and press **Enter**. All changes are saved.

Specifications

Power supply	24 VAC/12 VDC
Current	Max. 580 mA
Power consumption	Max. 7W
Weight (net)	1.95 lb. (880 g)
Dimensions	Ø 5.72 x 4.89 in. (Ø145.3 x 124.2 mm)
