

# BETTER EDUCATION

starts with safe schools

Comprehensive security solutions  
designed for K-12 applications

# SECURING SCHOOLS

to help unlock student potential.

Even as school safety and security remain high priorities for all involved parties, administrators face a number of obstacles that can make developing and implementing a security plan a challenge.

*Increased school consolidation means more students at existing schools*

*Budgets are limited*

*Expectations for performance remain high*

## EVOLVING TECHNOLOGY TO MEET CHANGING DEMANDS

Providing an effective learning environment is essential in supporting school systems' efforts to maximize student achievement. As a leading security partner for a number of school systems throughout the U.S., Interlogix has worked closely with administrators and channel partners to develop and implement security systems that provide reliable, scalable solutions to meet a variety of needs.

VIDEO SURVEILLANCE

INTRUSION

ACCESS CONTROL

SECURITY SYSTEM MANAGEMENT

Together, components from these categories form a complete system that creates a safer environment for students, faculty and visitors while also protecting assets, equipment and property 24/7 throughout the school year. By incorporating open standards and accommodating legacy third-party products, Interlogix solutions are cost-effective options that school systems can rely on.

# COMPLETE EFFECTIVE SOLUTIONS

that deliver whole-school security

## VIDEO SURVEILLANCE

Interlogix video products bring the benefits of digital security monitoring into new or existing systems for schools of all sizes. Featuring components that are easy to install and operate, Interlogix solutions provide optimal video coverage.

- HD and Analog Cameras
- Network and Analog Recorders
- Monitors
- Transmission Products
- School Bus Video Surveillance

## INTRUSION

Interlogix intrusion solutions feature advanced technologies to deliver greater security and scalability that easily accommodates system growth and changing needs.

- Motion Detectors
- Sensors
- Software
- Keypads

## ACCESS CONTROL

Interlogix represents leading access control products that cover a range of application requirements and integrate with existing infrastructure for optimal performance while still being simple to operate and manage.

- Readers
- Software
- System Options

## SECURITY MANAGEMENT

Leveraging the full functionality of all the security components requires robust management offerings. Interlogix brings together multiple products in a user-friendly interface that can be managed on-site or remotely through Web-enabled devices to minimize threats and reduce costs.

COMPREHENSIVE

# SERVICE & SUPPORT

In addition to innovative security products, Interlogix provides ongoing support before, during and after the installation through our broad network of channel partners. These expert security technicians receive extensive training and resources to ensure your system best meets each need and continues to perform optimally for immediate and long-term value.

Interlogix security solutions meet the unique demands of modern applications with scalable systems that can accommodate changing needs while supporting legacy products to optimize security investments. With a diverse portfolio of products that form a comprehensive security system, Interlogix helps ensure you have everything you need to protect people, property and the bottom line.
