TruVision DVR 10 Firmware 2.7 Release Notes

Introduction

This is the TruVision DVR 10 Firmware 2.7 Release Notes with additional information not covered in the User Manual. For the latest information on the TVR 10, please visit:

Americas: http://www.interlogix.com/videoupgrades

EMEA: www.utcfssecurityproducts.eu

Australia: www.gesecurity.com.au

Firmware Notes

TruVision DVR 10 firmware 2.7 new features and improvements include:

- Support for NTP
- Improved Player application
- Improved Browser
- Improved OSD

Updating the firmware

1. Copy the .ZIP file to your PC and extract the .DAV file to the desired local folder.

2. Open Internet Explorer and connect to the TVR 10.

3. Go to **Configuration** and select **Update Remotely**. Click "Browse" and select the .DAV file on your local folder. Click **OK** to start the upgrade.

4. The unit will reboot, after which the update is applied. Your previous configuration will remain unchanged.

Contacting support
