

Return & Warranty Policy for Distributors

This *Return & Warranty Policy for Distributors* (“Policy”) applies to products and services purchased directly from the following UTC Fire & Security Americas Corporation, Inc. business: Interlogix or its successors or assigns (“Interlogix”) by an independent distributor approved by Interlogix (“Distributor,” “you,” or “your”) for resale to independent dealers or integrators who resell such products to end-users in their respective businesses (“Dealers”).

The terms and conditions of this Policy are subject to change. The most recent version of the Policy controls, and will be communicated in writing from Interlogix at an email address or mailing address that Interlogix has on file for you. The Policy may also be available at www.interlogix.com/distributor_return_and_warranty_policy_policy.pdf, or at another website as Interlogix may provide notice from time to time. If you have questions about this Policy, contact the appropriate customer service center or your sales representative. All periods of days set forth herein are calendar days unless otherwise stated.

Warranty Repairs

Subject to the terms and conditions of the limited warranty in effect at the time of purchase, which is set forth in the UTC Fire & Security Terms and Conditions of Sale for Interlogix available at the Interlogix website at www.interlogix.com, and the terms and conditions of this Policy, Interlogix will repair or replace defective or non-working product within the product’s warranty period set forth in this Policy. Interlogix reserves the right to replace any product under warranty with new, or refurbished or remanufactured (in the case of a repair/replace RMA), product or to refund the purchase price. For product purchased from a Distributor by a Dealer, the warranty period starts from the earlier of the following: (i) the date the product is purchased by the Dealer from such Distributor, as evidenced by Distributor’s documented business records, such as a record from the Distributor system, Distributor invoices, or statements showing the purchase date, or (ii) the date which is twelve (12) months after such product was purchased by such Distributor from Interlogix.

Product warranty repair/replacements of Interlogix product purchases are only permitted for defective or non-working product, which may be established via product troubleshooting with the Interlogix Tech Support department, or via the Distributor’s submission to Interlogix of an accurate and complete RMA Details Form adequately describing the defect or non-working condition, as described further below. Whether the RMA Details Form adequately describes the defective or non-working condition so as to establish product failure is within the sole discretion of Interlogix. In cases of established product failure, Interlogix will provide a case number. If a Distributor returns product to Interlogix without following these procedures and conditions, and Interlogix determines the product is in working condition or NTF (No Trouble Found) then no compensation for the cost of the unit will be provided by Interlogix to the Distributor or a Dealer under the product warranty, even if the Distributor has already conducted an exchange of the product for a Dealer or other customer.

In the event of any dispute regarding the terms or applicability of a warranty, Interlogix, in its sole discretion, shall determine whether a warranty applies and, if it does, the terms and conditions of such warranty.

NO IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR IMPLIED WARRANTY ARISING FROM COURSE OF DEALING OR USAGE OF TRADE SHALL APPLY.

Warranty periods vary based on product category and type of equipment, as shown in Table 1 entitled “Product warranty periods” below.

Product Warranty Periods

Table 1 lists warranty durations for most Interlogix equipment, sorted by category. Warranty periods start as set forth under the heading “Warranty repairs” above. For items that do not appear in Table 1, contact Customer Service or your sales representative for the applicable

policy. Note that, notwithstanding any language in the table below, batteries that are sold individually or as a replacement are not covered under any warranty.

	Product	Warranty Period
Access	Proximity readers	Lifetime*
	TruPortal	2 years
	Cards (minimum 10 cards for return)	5 years
	Manufactured hardware	2 years
	Magstripe cards	1 year
Fire	Facility Commander Wnx, Picture Perfect, Secure Perfect, Topaz, Diamond, Sapphire, Alliance, Director, Verex, other software products	1 year
	Fire alarm control panels	3 years
	Air duct detectors	3 years
	Heat detectors	3 years
	Notification appliances	3 years
	Pull stations, fire stations	3 years
Intrusion	Smoke detectors	3 years
	Computers, computer option cards, file servers, monitors, touchscreens	1 year
	Hardwired contacts, hardwired sensors, passive modules and components†	5 years
	Wireless sensors	2 years
	Cellular communication modules (e.g., alarm.com modules)	1 year
Video and Transmission	UltraSync™ Secondary Touchscreen	1 year
	Security controls, panels‡, powered modules and components (e.g., Simon® XT, Advisor@One, UltraSync, IP communication modules, touchscreens (except UltraSync Secondary), etc.)	2 years
	IFS fiber transmission and UTP products	Lifetime§
	IFS network products and media converters	3 years
	IFS power supplies for transmission products	2 years
	Fiber Options fiber optic products	5 years
	TruVision fixed cameras	3 years
	TruVision analog and IP PTZ cameras	3 years
Other	TruVision LCD monitors	3 years
	TruVision DVRs and NVRs	3 years
	TruVision encoders and decoders	3 years
Other	Third-party manufactured product (e.g., Dell monitors, etc.)	Third-party warranty
	B-stock products	1 year
	UltraSync™ mobile app	None

Returning Interlogix Products

* For proximity readers, “lifetime warranty” means that for defects in materials and workmanship under normal use and service for fifteen (15) years from the date of purchase, UTCFSA shall provide the original dealer purchaser a credit towards future purchases of products from UTCFSA in the amount of the purchase price paid by the dealer for the proximity readers (excluding taxes and levies), unless such product is discontinued, in which event warranty support is limited to five (5) years from the announcement of discontinuance.

† Batteries that are included in the box with a sensor, detector, or peripheral are covered under the product warranty.

‡ For panels, only batteries included in a self-contained panel (including the UltraSync Self-contained Hub, AdvisorOne, Simon XT, Simon XT1, and Simon XT1-5) are covered under the standard warranty. Any battery that may be included in a modular panel is not covered under the standard warranty.

§ For IFS fiber transmission and UTP products, “lifetime warranty” shall be the lifetime warranty set forth in the installation and operation instructions or other technical documentation for such products, or, if no such warranty is set forth in the referenced documentation, “lifetime warranty” means that UTCFSA warrants to the original dealer purchaser that products will be free from defects in material and workmanship as of the date of delivery, under normal use and service. The foregoing shall apply only to failures to meet said warranties which appear within that period of time during which the products are installed in their original installation for the original end user and operator of such products; provided, however, that in the event of product discontinuance, warranty support is limited to five (5) years from the announcement of discontinuance.

Return & Warranty Policy for Distributors

Before you can return any product to Interlogix, you must obtain a return material authorization (RMA). This applies to all product returns, including warranty repair/replacements, non-warranty repairs, advance replacements, and credit returns.

For Advance Replacement the Dealer (regardless of whether the product has been purchased directly from Interlogix or a Distributor) must first obtain a Tech Support Case Number by calling the INTERLOGIX Tech Support department, or complete the RMA Details Form adequately describing the defect or non-working condition as outlined below. In order to obtain a Tech Support Case Number the Dealer must contact the Tech Support department while the product is still installed and attempt to troubleshoot any issue. If the Tech Support department determines that the product must be returned for further evaluation they will issue a Tech Support Case Number, which is required before any Advance Replacement will be accepted, unless an RMA Details Form is completed as outlined below.

To obtain an RMA, contact the appropriate Interlogix customer service center (see "Customer Service Centers") for your product, and have the product and the following information ready:

- Customer account # (required for all RMA requests)
- Original PO (or, if applicable, original CSR or other Distributor branch generated number). (If the original PO is not provided, the processing time may be delayed for warranty repair/replacements, advance replacements, and other returns and replacements subject to a time limit. If the original PO is not provided, Interlogix will attempt to validate the purchase of the product within the applicable time period for the type of return sought. If the purchase time period cannot be validated for a return subject to a time limit, no RMA will be provided, and the return will be declined.)
- New PO number (required for repair requests)
- Part number
- Serial number (when applicable)
- Reason for return by Dealer, accurately and completely describing the defect or non-working condition (to be captured in new RMA form)
- Dealer Name (to be captured in new RMA Form)
- Tech Support Case Number or RMA Details Form, which may be obtained through Customer Service (for Advance Replacement)

Customer Service will provide you with an RMA number and an enhanced RMA acknowledgment form that confirms your request.

Once you have the RMA, repackage the product as described in the section entitled "Packaging your shipment" and attach the RMA Return location address and bar code section from the RMA acknowledgement to the outside of the package.

All products must be returned freight prepaid within 30 days of obtaining an RMA. An RMA may be cancelled after 30 days, in which case a new RMA must be obtained.

We will not accept unauthorized returns or freight collect/COD returns; we will return these to you at your expense.

If a returned product contains parts that are no longer available or repairable, we will contact you to discuss resolution and return of the material.

The repair department will evaluate all equipment returned to determine warranty coverage and will resolve any questions that may arise during evaluation to make a final determination.

Note: The distributor return and warranty policy is different from the dealer return and warranty policy. Please confirm you are using the correct policy for your channel.

Non-Warranty Repairs

Buyer will be charged for all repairs and shipping costs for products that are not within the product warranty period or that are not under warranty. For all such non-warranty repairs, Interlogix will provide a repair estimate that includes charges for parts, labor (in half-hour increments) and shipping.

Products receiving non-warranty repairs are granted an extended warranty of 90 calendar days from the date of shipment from Interlogix back to the buyer following the non-warranty repair, except for fire products, which instead are granted an extended warranty of one year.

Advance Replacement

In addition to product returns under our limited warranty, we offer advance replacement, which is provision of a replacement product to the Dealer or Distributor by Distributor or Interlogix in advance of receiving the returned product from the Dealer or Distributor, for a select group of products as listed in Table 2 below ("Advance Replacement"). For the product participating in the Advance Replacement program the following guidelines apply.

No returns for Advance Replacement will be accepted unless you have (1) obtained an RMA number **and** (2) you have obtained a Tech Support Case Number or completed the RMA Details Form as described in the section entitled "**Returning Interlogix products**" above. Advance Replacement products will be replaced with new products at Interlogix's sole discretion and carry a full original equipment warranty. Interlogix may send Advance Replacement product to replace defective equipment that has failed upon initial install for up to 365 days. Advance Replacements will ship via ground the next business day.

Our repair department will evaluate the returned product to determine whether it is a warranty or non-warranty replacement and bill you accordingly. We will invoice Advance Replacements at shipment and credit you upon receipt of the defective product; provided, however, that if we determine that the returned product is in good working order or that performance issues were due to improper installation, misuse, abuse, or other user-related causes, we will issue no credit and you will remain responsible for paying the invoice, and we will return such product to you at your expense. If the defective product is part of a kit, you shall return only the defective product (i.e., you shall not return the remainder of the kit) and we will replace only the defective product through Advance Replacement. If the product was purchased or exchanged at a Distributor and no Tech Support Case Number was provided at time of exchange, no credit for the replacement unit already given to the Dealer will be issued to that Distributor.

Note: Advance replacement is not available for custom, special or nonstandard products as determined in Interlogix's sole discretion

Customer Service

Return & Warranty Policy for Distributors

Product Category	Advanced Replacement Eligible?	Participating SKU's/Product Family	Remark
Access Control	YES*	Pls see Table 4	
Fire	NO	Not Applicable	Use Standard Warranty
Video and Transmission	YES*	Pls see Table 3	
Intrusion	YES*	Pls see Table 4	
Voice	NO	Not Applicable	Use Standard Warranty
Other	NO	Not Applicable	Use Standard Warranty

The list of SKU's eligible for Advanced Replacement in the video & transmission and intrusion portfolios are listed in Tables 3 and 4, respectively, at the end of this Policy.

Refurbished B-stock Products

Interlogix occasionally offers select products for sale as *B-stock*—units that have been used in the field and refurbished. B-stock products are covered by different warranty conditions and durations than new products. Refurbished products come with a one-year limited warranty.

Stock Rotations

For Distributors we offer a Stock Rotation program to return unused, unopened products with untampered factory seals, to the extent that Interlogix determines such products are still saleable, as set forth in this Policy. This program replaces any and all prior and legacy stock rotation and credit return programs previously offered or provided by Interlogix.

Under the stock rotation program, Distributor may return a limited quantity of products to Interlogix on no more than four (4) occasions between February 1 and November 30 during each calendar year during the term of the distribution agreement with Interlogix. The aggregate price for the products requested for stock rotation may not exceed 10% of the Distributor's purchases during the previous quarter. A stock rotation return is initiated by Distributor sending Interlogix a stock rotation report and a new replacement purchase order, and otherwise complying with the terms of this Policy. Upon Interlogix's verification and acceptance of a stock rotation report and the replacement purchase order, Interlogix may issue an RMA. Distributor must return the applicable products within thirty (30) calendar days of issuance of the RMA. Distributor shall pre-pay all shipping and insurance charges in returning products to Interlogix, and shall bear all risk of loss or damage in transit. No stock rotation will be accepted unless Distributor has obtained an RMA number as described in the section entitled "**Returning Interlogix products.**" Additionally, a Distributor's stock rotation return will not be accepted unless Distributor submits a new replacement purchase order with an aggregate purchase price of at least the amount of the stock rotation return. Such replacement purchase order for a stock rotation must not be dated earlier than the stock rotation report initiating the stock rotation return.

Products that comprise more than 30% of the last three orders placed by Distributor ("Top Runners") are not eligible for a stock rotation return. Any products that have a bulk discount pricing structure are also not eligible for return. Products purchased as part of a kit must be

returned in their entirety (i.e., the entire kit must be returned, not separate parts) to receive refund or credit. Stock rotations, refund, or credit are not available for custom, special, or nonstandard products, or for products that are no longer on the Interlogix price list. Interlogix may permit stock rotations or provide credit to Distributor only for products that are to the extent Interlogix determines such products are still saleable. Ordinarily, a product is saleable if it is on the current Interlogix price list and otherwise meets the conditions set forth in this Policy. The determination of whether a product is saleable is within the sole discretion of Interlogix. All credit amounts shall be based off of current customer pricing as of the date the credit is issued.

End of Life ("EOL") returns are excluded from the stock rotation process outlined in this section. Instead, where Interlogix has communicated to Distributor in writing that a product is EOL, whether through inclusion of the product on the discontinued price tab in the price list, by an email communicating to Distributor that the product will no longer be sold or supported, or through any other written communication to Distributor that the product is EOL (the "EOL Notice"), a return of such EOL products will be accepted, but only within the first ninety (90) days after the EOL Notice, and only to the extent that such products are factory sealed, unused, and in the original, unopened shipping.

Note that any product credit that may be issued to Distributor expires after one year of issuance. All returns are subject to Interlogix's inspection and approval.

Packaging Your Shipment

Protecting the value of returned products by packaging and shipping them correctly is your responsibility. The risk of loss for products being returned to Interlogix remains with Distributor until received by Interlogix at the Interlogix location designated in the RMA. Distributor is responsible for compliance with all laws and regulations related to shipping any products to Interlogix, including without limitation laws and regulations related to the shipment of regulated or hazardous materials, to the extent applicable. Distributor agrees to indemnify Interlogix from all losses and liabilities to Interlogix arising out of Distributor's failure to comply with applicable laws and regulations related to shipping.

Interlogix reserves the right to deny warranty coverage for any damage caused by failing to meet the following packaging requirements:

All electronic components must be taped and/or contained in their original electrostatic protective packaging or an equivalent substitute.

All parts must be packed securely inside the external shipping carton to prevent mechanical or other damage.

External packaging must be sufficient to protect the contents from the usual hazards of shipping.

Returned products should be addressed to the correct legal entity name set forth in the RMA.

If products are being returned to Interlogix from outside of the United States, the stated value of the returned products for customs should be greater than zero, and typically should be equivalent to the purchase price of the returned products. Further, the return of such products to Interlogix shall comply fully with the export administration and control laws and regulations of the United States government and other applicable jurisdictions, and any amendments of such laws and regulations.
