# DIGITAL VIDEO

**Integration Starts Here!**

Guardall digital video systems encompass a full range of advanced CCTV technologies to provide you with an effective equipment solution for your facility, campus or organization. Just as importantly, they are also designed to grow as your needs change without discarding your original investment.

**NETWORK RECORDING SYSTEMS** – Offering real-time viewing, recording, expandable video storage capacities and view/record/control from anywhere in the world.

**NETWORK SERVER SYSTEMS** – Expandable and scalable surveillance that supports an unlimited number of cameras, remote monitoring stations and a full array of sophisticated features including 5-way simultaneous operation and almost unlimited storage capacity.

**IP NETWORK SYSTEM** – Guardall digital video systems support next generation IP network cameras that continue to improve in resolution and features while becoming more affordable for small and mid-sized applications.

## APPLICATIONS

- BANKS AND FINANCIAL INSTITUTIONS
- AIRPORTS AND TRANSIT SYSTEMS
- UTILITIES AND RESOURCES
- EDUCATIONAL FACILITIES
- HEALTHCARE FACILITIES
- MULTI-TENANT BUILDINGS
- APARTMENT/CONDOMINIUMS
- RETAIL STORES

## REMOTE STATIONS

View, record and control multiple cameras, in multiple locations:

- Quick-search and Smart Search of recordings
- Pan/Tilt/Zoom camera control
- Email notifications (with snap-shot)

## ATM/POS SURVEILLANCE

Integrated video surveillance with event or transaction recording provides a high security solution for banking and retail applications:

- Location, date, time and transaction imprinting
- Compatible with most 3rd party ATM and POS (Point of Sale) systems

Remote Diagnostics ensures advance notification of local and remote system functionality.

Panoramic Video Surveillance Cameras

### A NEW DEFINITION FOR VIDEO PERFORMANCE

Guardall digital video systems provide industry-leading surveillance, including video motion detection and the ability to integrate with Guardall Director software.

They also offer a new level of easy operation, with the option for customized and interactive monitoring display screens and remote notification.

## 'TRUE' INTEGRATION

Every Guardall digital video system is designed to allow integration with Guardall Director integrated management software at any time in the future!
