

Now, the only thing easier than installing access control is using it.

Introducing TruPortal access control systems—built simply for you.

TruPortal access control solutions deliver reliable, high-end technology that installs quickly and easily right out of the box. Ideal for small to mid-sized applications, TruPortal is a Web-based application requiring no additional server. With our exclusive Install Wizard™ function, configuration is simple and quick for you, and intuitive and easy to use for your customers. Plus, only TruPortal works seamlessly with Interlogix's TruVision™ video line to streamline compatibility and service issues.
