Certification

FCC compliance

Class A: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

ACMA compliance

Notice! This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

Canada

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-0330 du Canada.

European Union directives

2004/108/EC (EMC directive): Hereby, UTC Fire & Security declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2004/108/EC.

2002/96/EC (WEEE directive):* Products marked with this symbol cannot be disposed of as unsorted municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information see: www.recyclethis.info.

Important safeguards

- 1. Installation cautions:**
 - Do not block any ventilation openings.
 - Always ensure that the monitor is located in a well-ventilated area to prevent the unit from overheating.
 - Only use accessories specified by the manufacturer or those sold with the product.
 - Avoid operating or placing the monitor in the following environments: extremes of temperatures, both hot and cold; high humidity; direct sunlight; excessively dusty surroundings; avoid close proximity to other equipment that generates a strong magnetic field
- 2. Water and moisture:** Do not use this appliance near water. To reduce the risk of fire or electric shock, do not expose this unit to rain or moisture.
- 3. Power cord and power cord protection:** Power cords should be routed so that they not likely to be walked on or pinched. Pay particular attention to the location of cords and plugs, convenience receptacles, and the point of exit from the appliance.
- 4. Product care:** Do not touch the screen directly with fingers. The oils from your skin may leave marks on the surface of the screen, which are difficult to be removed and may damage the screen permanently. Do not apply pressure to the screen.
- 5. Cleaning:** Clean only with a dry cloth.
- 6. Servicing:** Do not attempt to service this unit yourself. Opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- 7. Lightning:** For added protection during a lighting storm or when this unit is left

unattended and unused for long periods of time, unplug the unit from the wall outlet and disconnect the cable system. This will prevent damage to the unit due to lightning and power line surges.

8. Mains plug (2 pin/3 pin):

- Do not remove the grounding or earth connection from the power supply / mains plug.
- Always remember to unplug the monitor from the power supply under the following circumstances if the monitor will not be used for a long period of time, if the power supply cable or plug/connector is damaged or if the monitor housing is damaged or broken.

CAUTION: Do not attempt to dismantle this product. Any attempt to dismantle or remove the covers from this product will invalidate the warranty and may also result in serious injury.

Introduction

This manual explains how to correctly install, operate and get the best performance from your monitor. Please read this user manual carefully before installing your monitor then keep it near your monitor for quick reference.

First, please check that the contents of the box correspond with the following checklist:

- LED monitor
- Power cord
- VGA cable
- AC adaptor
- User manual

If any item is missing or damaged, please contact your dealer. Please keep the box and packing materials so that you may properly store or transport your monitor.

Features

- The monitor is designed for use in a small work area or for those who need more work space on the desk.
- The convenient and user-friendly on-screen display allows for easy and accurate adjustments of screen size, position and screen color.
- The monitor complies with the VESA Display Data Channel (DDC) specification for Plug and Play compatibility. Advanced microcircuitry makes setup and configuration fast and effortless.
- The monitor features Advanced Color Controls for fine-tuning to meet your own personal tastes or application requirements. Use the on-screen controls to adjust the color temperature,
- RGB gain value for the best possible screen color and intensity.
- Press the Menu button and activate the Self-Diagnosis menu to determine whether your monitor is functioning normally, not receiving a signal or is receiving a signal that is out of scanning range.
- Activate the higher refresh rates of the monitor to stabilize the screen and eliminate the annoying flicker that contributes to eye-strain and headaches.
- The monitor supports the optimal display performance with 1280x1024 @ 60 Hz (TVM-1701/TVM-1901 Model), 1920x1080 @ 60 Hz (TVM-2150 Model) and 1366x768 @ 60 Hz (TVM-1850 Model).
- The monitor can be connected to various types of video devices with supporting video input signals such as Composite video (CVBS), and Separate video.
- The internal stereo speakers produce a good quality audio sound.

Assembling the monitor

The monitors are designed for use on a desktop.

The arm of the monitor stand is shipped pre-installed on the monitor.

To assemble the monitor:

1. Put a smooth pad or cloth on a level surface. Place the monitor on it facing downwards.
2. Insert the arm of the monitor stand of the monitor into the pedestal foot provided. See figures below.

TVM-1701/TVM-1 901 models

TVM-1850/TVM-2150 models

To disassemble the monitor:

1. Put a smooth pad or cloth on a level surface. Place the monitor on it facing downwards.
2. Using a screwdriver or a similar object with a sharp end, carefully detach the supporting arm from the foot by pressing the groove on the back of the supporting arm. (Note that the fixation point can be broken if too much force is applied). See figures below.

TVM-1701/TVM1901 models

TVM-1850/TVM-2150 models

Connections

1. DC 12V Input
2. VIDEO OUT
Composite signal output
3. VIDEO IN
Composite signal input.
4. AUDIO L
Audio signal input left.
5. AUDIO R
Audio signal input right.
6. PC Stereo Input
7. Head Phone Out
8. USB
Service port
9. HDMI
HDMI signal input.
10. VGA
RGB signal input.

Front panel controls

Control panel (TVM-1701 model)

1. POWER indicator

Shows both normal operation and power management status with power LED

2. POWER

Switches the monitor on and off.

3. MENU

Turns the OSD window on.

Turns the OSD window off and moves from sub menu to top menu in the OSD window.

*Push the menu button for 5seconds when you want to unlock the keypad lock.

4. ▼ Down Arrow (*)

Primary Function: Used to decrease the volume.

Secondary Function: Moves cursor to the down in the OSD window and decreases the value of any selected menu.

5. ▲ Up Arrow (*)

Primary Function: Used to select from different input sources.

Secondary Function: Moves cursor to the up in the OSD (On-Screen Display) window and increases the value of any selected menu.

6. AUTO (*)

Primary Function: Automatically adjusts the display to the most optimal setting possible. (VGA mode only)

Secondary Function: Selects the sub menu

Control panel (TVM-1901/ TVM-1850/ TVM-2150 models)

1. POWER indicator

Shows both normal operation and power management status with power LED.

2. POWER

Switches the monitor on and off.

3. ► Right Arrow (*)

Primary Function: Used to increase the volume.

Secondary Function: Moves the cursor to the right in the OSD window and increases the value of any selected menu.

4. ◀ Left Arrow (*)

Primary Function: Used to decrease the volume.

Secondary Function: Decreases the value of any selected menu.

5. ▲ Up Arrow (*)

Primary Function: Automatically adjusts the display to the most optimal setting possible. (VGA mode only)

Secondary Function: Allows for vertical scrolling in the OSD menu.

6. ▼ Down Arrow

Allows for vertical scrolling in the OSD menu.

7. SOURCE (*)

Used to select different input sources.

Press the UP or DOWN arrow to scroll through the available sources, and press SOURCE arrow to confirm selection.

8. MENU

Turns the OSD window on.

Turns the OSD window off and moves from sub menu to top menu in the OSD window.

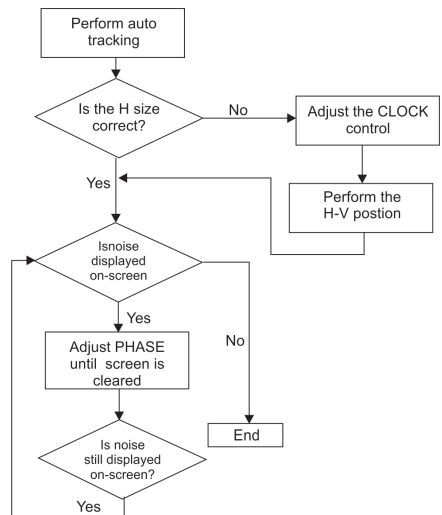

Changing a monitor parameter

1. Press the **MENU** button on the front panel to obtain the OSD menu screen.
2. Use UP-DOWN buttons to select the menu.
3. Use AUTO or SOURCE button to select the submenu.
4. Use Up-Down buttons to select a submenu function.
5. Press AUTO or SOURCE button, then using left-right buttons you can make adjustments as necessary.
6. To exit, press **MENU**.

Hot keys

SOURCE	Selects signal in order. VGA - HDMI - CAM
▲ (UP/AUTO)	When there is no OSD, if you press this ▲ (UP/AUTO) button, you can use the best display performance fit for a current mode
◀ ▶ (VOLUME)	When there is no OSD, you can adjust the volume directly

Adjustment procedure

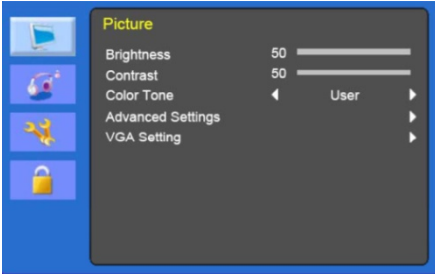

OSD function

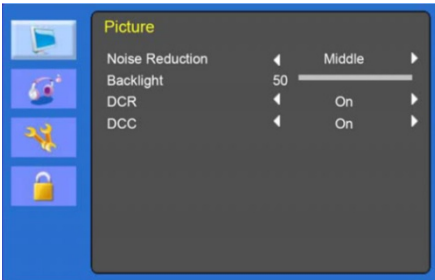

Configure the monitor using the on-screen display (OSD) menus and submenus. Changes are immediately saved and implemented.

VGA menu

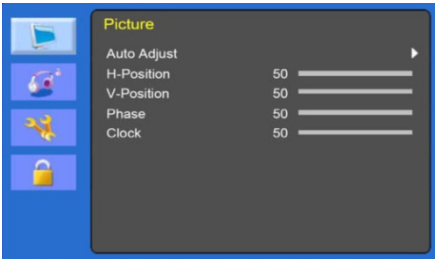

• Picture

(Advanced Settings)

(VGA setting)

1. Brightness

Adjust the brightness of the image.

2. Contrast

Adjust the contrast of the image, the difference between light and dark areas on the screen.

3. Color Tone

Choose a different preset color temperature or set your own customized color parameters. (Normal/ Warm/ Cool/ User).

4. Advanced Setting

4-1 Noise Reduction.

Not used.

4-2 Back Light

Adjust the back light to be brighter or darker.

4-3 DCR

Not used.

4-4 DCC

Not used.

5. VGA Setting

5-1 Auto adjust

Automatically choose the correct horizontal position and vertical position and size of the screen image.

5-2 H-Position

Adjust the position of the display horizontally (left or right).

5-3 V-Position

Adjust the position of the display vertically (up or down).

5-4 Phase

Remove any horizontal noise and clear or sharpen the image of the characters.

5-5 Clock

Adjust the width (horizontal size) of the screen image.

• Sound

1. Sound Mode

Choose a different preset sound mode or your own customized sound. (Standard/ Speech/ Music/ User)

2. Balance

Adjust the sound balance of the left and right speakers.

3. Bass

When you select **User** mode, adjust the bass sound.

4. Treble

When you select the user mode, adjust the treble sound.

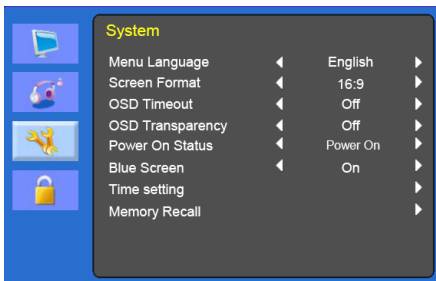

5. Equalizer

Provides an enhanced listening experience.

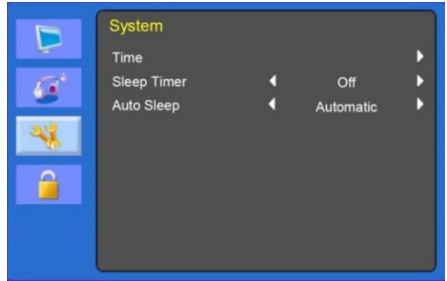

6. Auto Volume

Automatically remains at the same volume level if you change the program.

• System

(Time setting)

1. Menu Language

Select language for the OSD.

2. Screen Format

Select the aspect ratio (16:9/4:3).

3. OSD Time out

Adjust the display of the OSD menu (10 to 60 seconds).

4. OSD Transparency

Adjust the OSD transparency.
(off/Low/Middle/High)

5. Power on Status

Not used.

6. Blue Screen

Select the background color.

7. Time Setting

7-1 Time

Not used.

7-2 Sleep Timer

Set the sleep timer.

7-3 Auto Sleep

The monitor turns off when it does not receive any signal from the remote control or any button within the time set up (Off/ 1 Hour/ 2 Hours/ 5 Hours).

(A screen warning is displayed before the configured automatic shutdown time).

8. Memory Recall

Reset the screen to the factory preset display settings.

• Lock

1. Keypad Lock

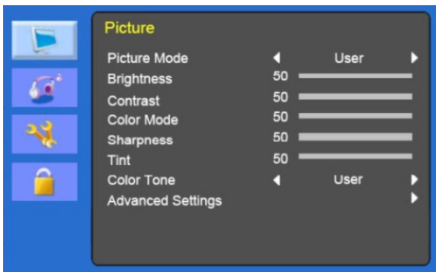

Turn the keypad lock on or off.

2. Remote Control Lock (optional)

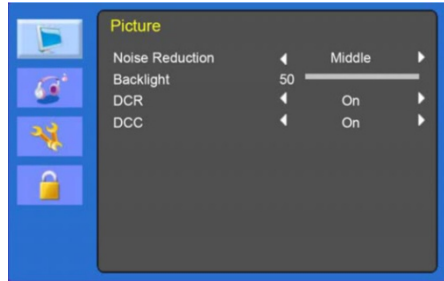

Turn the remote control lock on or off.

Cam menu (HDMI)

• Picture

(Advanced Setting)

1. Picture Mode

Select the picture mode (Standard/Movie/Dynamic/User/Eco).

2. Brightness

Adjust the brightness of the image.

3. Contrast

Adjust the contrast of the image, the difference between light and dark areas on the screen.

4. Color Mode

Adjust the color of the image.

5. Sharpness

Adjust the image quality of the display.

6. Tint (cam mode only)

Adjust the tint of the image.

7. Color Tone

Choose a different preset color temperature or set your own customized color parameters (Normal/ Warm/ Cool/ User).

8. Advanced Setting

8-1 Noise Reduction

Reduce the noise in the picture due to poor reception or poor picture quality. (Off/ Low/ Middle/ High).

8-2 Back Light

Adjust the back light to be brighter or darker.

8-3 DCR

The dynamic contrast ratio (DCR) automatically adjusts the screen brightness.

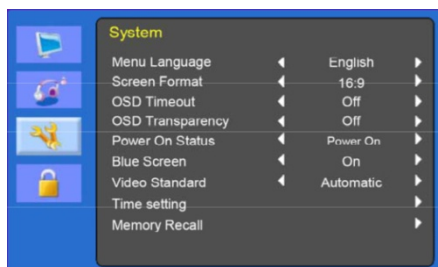

Turn DCR on or off.

8-4 DCC

The dynamic contrast control (DCC) automatically adjusts the screen contrast.

Turn DCC on or off.

• System

• Sound

1. Sound Mode

Choose a different preset sound mode or your own customized sound. (Standard/ Movie/ Music/ User)

2. Balance

Adjust the sound balance of the left and right speakers.

3. Bass

When you select **User** mode, adjust the bass sound.

4. Treble

When you select the user mode, adjust the treble sound.

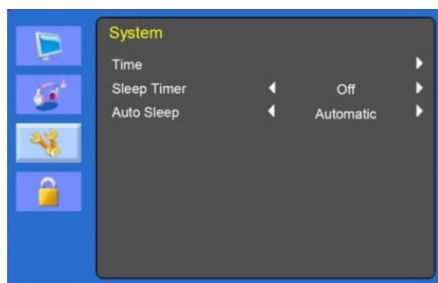

5. Equalizer

Provides an enhanced listening experience.

6. Auto Volume

Automatically remains at the same volume level if you change the program.

(Time Setting)

1. Menu Language

Select the OSD language.

2. Screen Format

Select the aspect ratio (16:9/4:3/ZOOM1/ZOOM2/FULL(HDMI mode only)).

3. OSD Time out

Adjust the display time of the OSD menu (10 to 60 seconds).

4. OSD Transparency

Adjust the OSD transparency.

5. Power on Status

Not used.

6. Blue Screen

Select the background color.

7. Video Standard (cam mode only)

Select the picture mode

8. Time Setting

8-1 Time

Not used.

8-2 Sleep Timer

Set sleep timer.

8-3 Auto Sleep

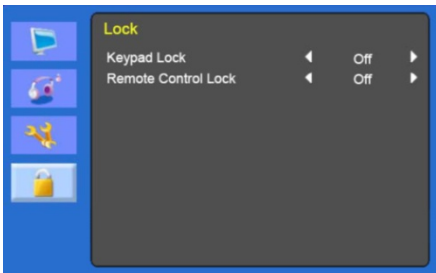

The monitor turns off when it does not receive any signal from the remote control or any button within the time set up (Off/ 1 Hour/ 2 Hours/ 5 Hours).

(A screen warning is displayed before the configured automatic shutdown time).

9. Memory Recall

Reset the screen to the factory preset display settings.

• Lock

1. Keypad Lock

Turn the keypad lock on or off.

2. Remote Control Lock (optional)

Turn the remote control lock on or off.

Self-diagnosis

If there is no image, the Self-Diagnosis screen will be displayed. The self-diagnosis function checks if the status of the monitor screen is No Signal, Out of Range, or None Supported.

No Signal

The **No Signal** screen is displayed when the D-Sub signal connector is connected but the status of the monitor is on DPMS mode.

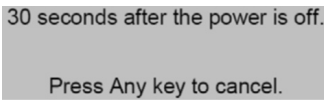

Out of Range

The **Out of Range** screen is displayed when the applied frequency is under or over normal range.

Normal range (Non-interlaced mode only):

H: 30 to 80 kHz

V: 56 to 77 Hz

30 seconds after the power is off.

Press Any key to cancel.

Press any key to cancel.

Monitor is turned off when it does not receive any signal from the remote control or any button within the time that set up.

Removing the monitor stand

1. Turn off the monitor and unplug the power cable.
2. Place a cushion or a soft cloth on the floor and put the monitor on it with the front of the monitor facing the floor.
3. Detach the rear cover of the monitor stand with a screwdriver.
4. Remove the four screws connecting the stand and monitor body. See figures below.

TVM-1701/TVM-1901 models

TVM-1850/TVM-2150 model

Attaching the monitor stand

Tighten the screws at the locations indicated by the arrows shown in the figures below.

TVM-1701/TVM-1901 models

TVM-1850/TVM-2150 models

The monitor's installation surface is compatible with other types of VESA standard stands.

Hole spacing: 100 x 100 mm

Screw length: 8 to 12 mm

Troubleshooting

Symptom	Check
Picture is jittery	Adjust Clock to set the screen position and adjust the Clock value carefully until there is no noise displayed.
No picture	<p>Check if the power switch and computer power switch are in the On position.</p> <p>Check if the signal cable is correctly connected to the video card.</p> <p>Check if the pins of D sub-connector are not bent.</p> <p>Check if the computer is in the power- saving mode.</p>
POWER LED is not lit	<p>Check if the power switch is in the On position.</p> <p>Check if the power cord is correctly connected.</p>
Image is unstable	Check if the signal cable is suitable to the video card.
Image is not centered, too small, or too large	Adjust Clock or H&V Center to get the proper image.
Picture bounces or a wave pattern is present in the picture	<p>Keep the devices that may cause electrical interference away from the monitor.</p> <p>See the FCC information at the front cover of the</p>

Symptom	Check
	manual.
Picture is blurred	Adjust Contrast and Brightness .
No sound	<p>Check the audio cables are correctly connected to the computer.</p> <p>Adjust the volume after checking the sound is muted.</p> <p>Check the audio system in the computer.</p>
Low sound	<p>Adjust the volume on the OSD menu.</p> <p>Adjust the volume of the sound card in the computer.</p>
VIDEO screen cannot be seen	<p>Check if PICTURE mode has been set.</p> <p>Check if the video terminal is properly connected.</p>
No video	Check if the video cable is correctly connected to the computer and set to Functions on the OSD picture menu.
Poor color in the video	Adjust the Color or Tint values on the OSD Picture menu.
Grainy picture in the video	Adjust the Sharpness on the OSD Picture menu.
