ultraSync

The UltraSync™ SmartHome system brings smart, cost-effective security and lifestyle management into your home and at your fingertips.

UltraSync Self-contained Hub

Interactive and wireless, the UltraSync hub acts as a single, convenient access point for a whole home security system. The hub can be controlled remotely or by using the integrated LED keypad.

Quick access

The hub allows you to quickly and easily arm and disarm your system.

Additional security

Panic buttons notify your system's monitoring company to send immediate police, fire or medical assistance.

Trusted performance

UL listed, the UltraSync hub meets certain national safety requirements for effective, safe and reliable performance.

Fits anywhere

Compact and wireless, the hub can be mounted in a closet, on a wall, or next to your bed with a convenient desktop stand.

The smart home system that keeps you in touch and in control.

One hub.
Many features.

The UltraSync Self-contained Hub has a variety of security features that increase protection and enhance convenience.

Works with UltraSync™ SmartHome

1. **Alarm indicator** Indicates when the system is in alarm mode.
2. **Arm stay button** Arms your system when you are at home.
3. **Information button** Tells you the status of your system.
4. **Arm away button** Arms your system when you are leaving.
5. **Ready indicator** Indicates when your system is ready to be armed, or lets you know if something needs to be addressed, such as an open window or door.
6. **Panic buttons** Notify your monitoring company of an emergency situation.
7. **Menu button** Guides you through a list of system options, including: speaker volume, keypad tone and brightness, and user codes*.
8. **Number buttons** Allow you to enter user codes and select options from the voice-guided menu.
9. **Enter button** Completes a command.
10. **Bypass button** Temporarily removes selected sensors from monitoring activity.
11. **Chime button** Turns chime on and off.
12. **History button** Informs you of the latest system events.

**Consult user manual.*

Built on cloud-based technology, the UltraSync™ SmartHome gives you the ability to remotely manage and automate home systems like HVAC, Z-Wave® lights, thermostats, locks and more from your smartphone or tablet.

Home control from anywhere

The UltraSync app is available for both iOS and Android™ devices.
