8/16 IP Channel Network  
Video Recorder

## OVERVIEW

The TruVision NVR 21 (TVN 21) from Interlogix is a high-performance network video recorder designed to support video streams from IP cameras. With a total of 80/160 Mbps of total bandwidth available, the TVN 21 can support up to 16 cameras at HD resolution in real-time (30fps) and many other configurations.\* Flexible bandwidth allocation per channel allows users to maximize recording performance. In addition, the TVN 21 has familiar front panel controls that allow for easy operation, as well as browser, software and mobile device management tools.

IP camera support includes resolutions ranging from standard VGA to 5.0 megapixel, including Interlogix<sup>®</sup> and third-party IP camera manufacturers.\*\* The TVN 21 also supports TruVision encoders for integrating existing analog cameras. Up to four internal hard disk drives may be configured for a total internal hard drive capacity of 2TB-8TB, making the TVN 21 ideal for extended storage or megapixel camera applications.

Recording options include continuous, motion, and alarm or combined scheduled recording modes. Motion recording utilizes an IP camera's built-in motion detection events, and alarms can be triggered from any of the 16 on-board alarm inputs or from alarm inputs that reside on the IP camera.

Software connectivity allows remote access to the recorder's full capabilities via Web browser or TruVision Navigator. TruVision Mobile also allows for remote device access. Configuration is quick and easy through startup wizards, IP device auto-discovery tools and ezDDNS service.

\*\*Support from third-party IP cameras may vary.

## STANDARD FEATURES

### Camera Support

- TruVision IP cameras from VGA ~ 5MPx
- TruVision single and multi-port encoders
- ONVIF Profile S support for 3rd-party camera integration
- RTSP Stream capability

### Recording Capabilities

- Up to 8/16 HD cameras in real-time (30fps)
- 80/160Mbps for incoming streams
- Continuous, motion, event or scheduled recording modes
- Audio recording with capable IP cameras
- Text insertion via ProBridge for ATM/POS
- Watermarking for legal video authentication
- Up to 8TB of storage with front accessible hard disk storage
- RAID 0,1,5,10 support
- External hard drive (eSATA) support
- Local USB archiving

### Installation and Operation

- Rack mountable – 1.5 RU
- Intuitive and logical user interface
- ezDDNS

### Local or Remote Control and Monitoring

- Triple monitor support – HDMI, VGA and analog
- 16 on-board alarm inputs and 4 configurable alarm outputs
- PTZ and dome camera control via mouse, front panel, IR remote or optional keypad
- Compatibility with TruVision Navigator and mobile app software
- Mac<sup>®</sup> Safari<sup>®</sup> browser plug-in
