TruVision® Navigator

Centralized video, access control and network management

interlogix
United Technologies

More than just
video management

Intuitive. Powerful. Integrated.

TruVision® Navigator takes Interlogix integration to the next level. More than just video management software, TruVision Navigator now brings Interlogix commercial offerings—video, access control and networking—together as one integrated solution.

One solution for multiple applications

Ideal for small to mid-size applications, TruVision Navigator provides powerful centralized and remote management capabilities, so you can manage every aspect of your TruVision-based surveillance system, easily and effectively.

Robust capabilities simplify operations

Feature-rich and easy to use, TruVision Navigator helps to streamline operations in high-volume installations, providing practical and reliable surveillance, even in challenging environments.

Expands to meet your needs

TruVision Navigator is a fully scalable solution that can be used as a standalone application, or deployed in a server/client environment.

A high-quality and affordable solution

With no service or maintenance agreements, TruVision Navigator is a reasonable, yet robust commercial surveillance solution. By integrating TruVision video, TruPortal access control and IFS network switches, TruVision Navigator provides an enhanced situational awareness solution via one security command center.

Operator-Friendly User Interface

TruVision Navigator brings together video monitoring, TruPortal access control and IFS network switches into one complete interface.
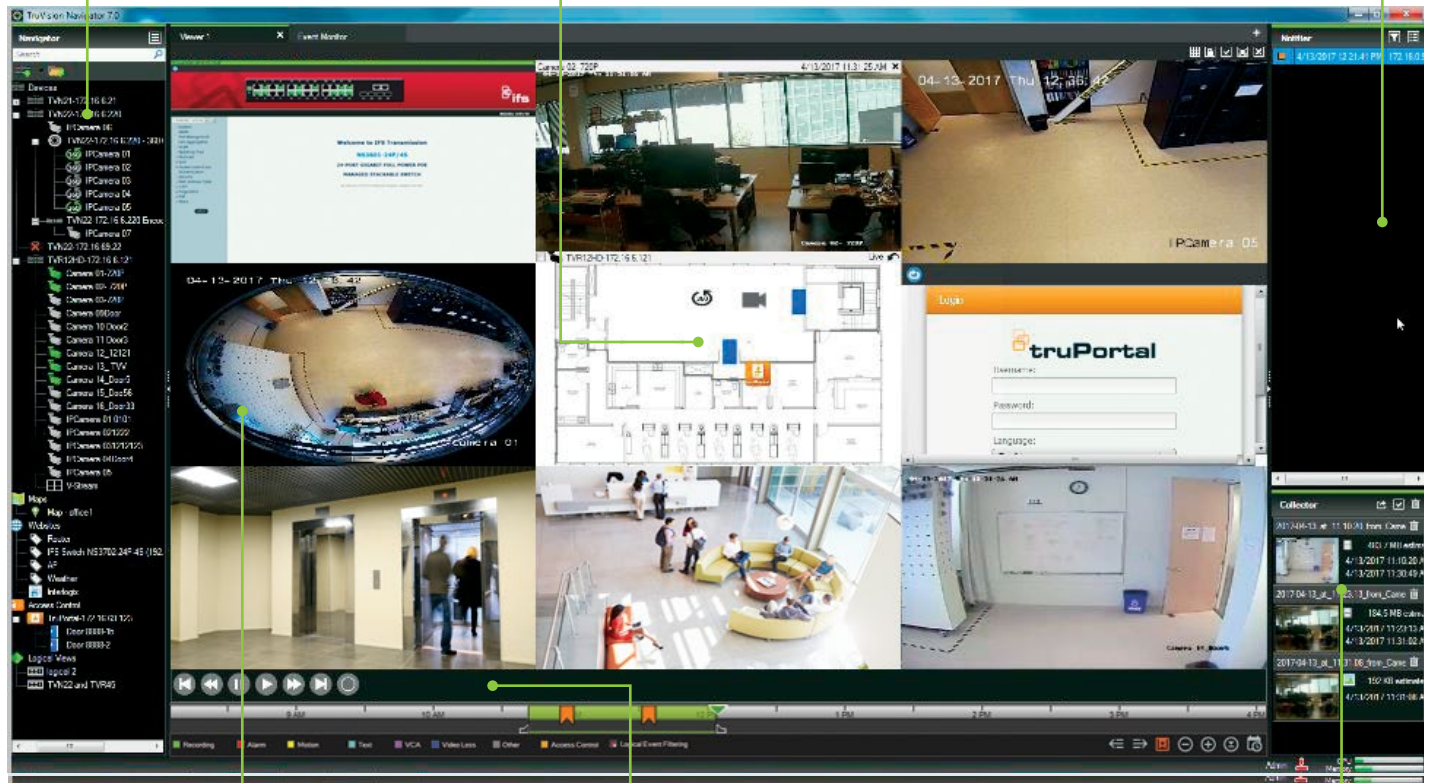

TruVision Navigator
Provides quick access to TruVision video cameras and recorders, TruPortal access control panels and doors as well as IFS network switches.

Facility/Campus Maps
Import facility/campus maps and easily add TruVision cameras or TruPortal panels and doors. Link cameras to doors to automatically receive event monitor video verification.

Notifier
Provides real-time, color-coded video event notification and TruPortal alarm events.

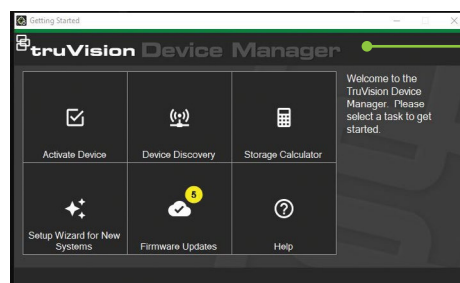

Viewer
View live and recorded video selected from the device, Notifier or Collector with up to 10 detachable video viewing tabs. The event monitor window provides color coded indications and live video during an alarm. Users can easily setup individual video viewing tiles for sequencing of multiple cameras for easy monitoring.

Video Playback Controls
Easily play, pause, rewind, scrub and bookmark video recordings with controls and timeline.

Collector
Acts as a holding repository for video segments, snapshots and local recordings ready for export.
Built-in Device Manager
Easy wizard based tool to easily activate and set-up your system. Perform global password changes and automatically notifies you of firmware updates on all your networked TruVision devices.
Feature rich for improved functionality.

TruVision® Navigator provides added convenience and improved functionality to the TruVision platform. Easy to install and maintain, the updated software delivers centralized video, access control, streamlined operations and more for commercial applications.
User-friendly interface

TruVision Navigator brings together video monitoring, TruPortal access control and IFS® network switches into one centralized interface. Robust and easy to use, the interface's key features include up to 10 video tabs, custom views, facility/campus maps, live event monitoring, video playback and 360° camera de-warping.
Scalable and compatible

TruVision Navigator is a fully scalable solution that can be used as a standalone application, or deployed in a server/ client environment. The system also offers backwards compatibility support for most legacy TruVision recorders, making system upgrades easy and affordable. The application easily integrates and manages TruPortal access panels and IFS network switches via the built-in device discovery tool.

High-quality and affordable

Available with no annual fee and no software maintenance agreements, TruVision Navigator is an easy-to-use, yet robust, commercial security solution*.

Advanced Features

Easily customize TruVision Navigator with logical views and event filtering. Integrate TruPortal™ access control with TruVision video and link cameras to doors to receive event notifications with video verification. Quickly find TruVision, TruPortal panels and IFS network switches on a local Ethernet/IP network with the built-in device manager tool.**

*Hardware for TruVision Navigator is sold separately.
**Advanced features may require license fees in some regions.

Helping ensure your business is prepared for whatever comes next.

Interlogix provides global security and life safety solutions for both commercial and residential applications—helping customers secure and protect what matters most. Interlogix is part of UTC Climate, Controls and Security, the leading provider of heating, air conditioning and refrigeration systems, building controls and automation, and fire and security solutions.
